

Empowering Patients & Providers

Turn Scattered Records Into **Complete Patient Stories**

Healthcare's Data Problem Costs Lives And Billions

One Unified Platform. Two Interfaces. Seamless EMR Sync.

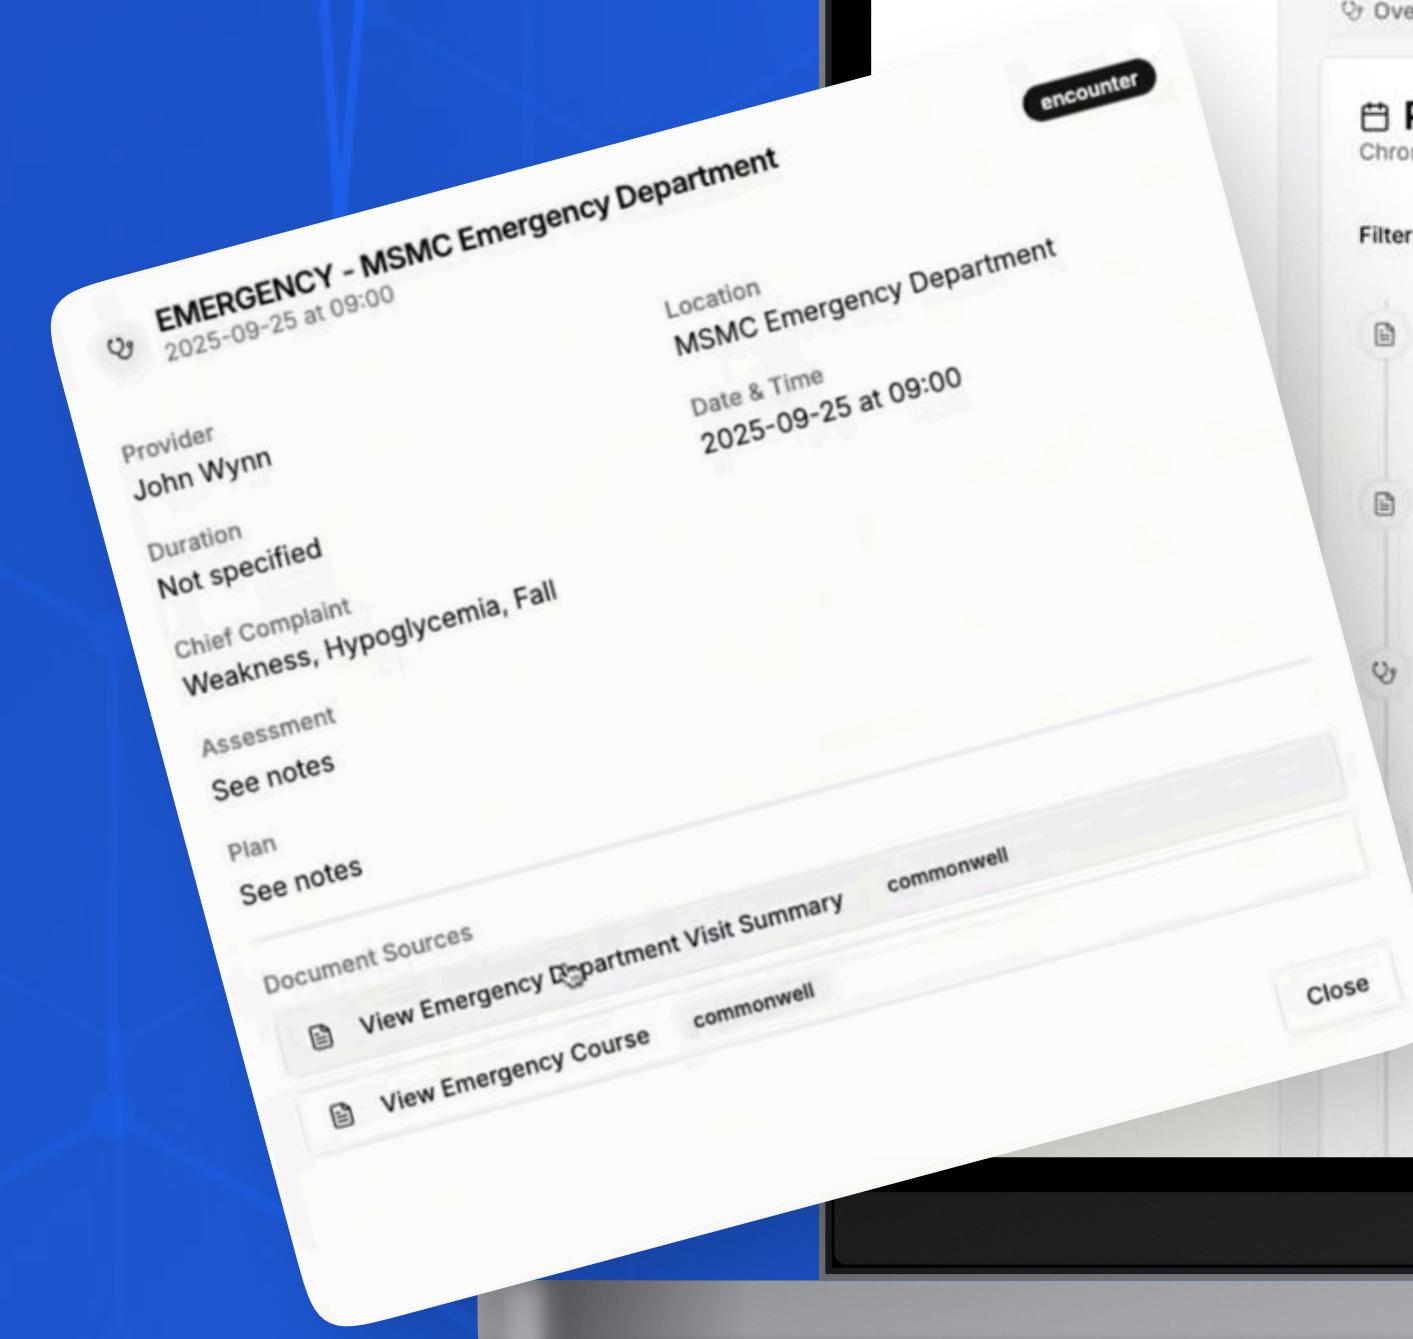

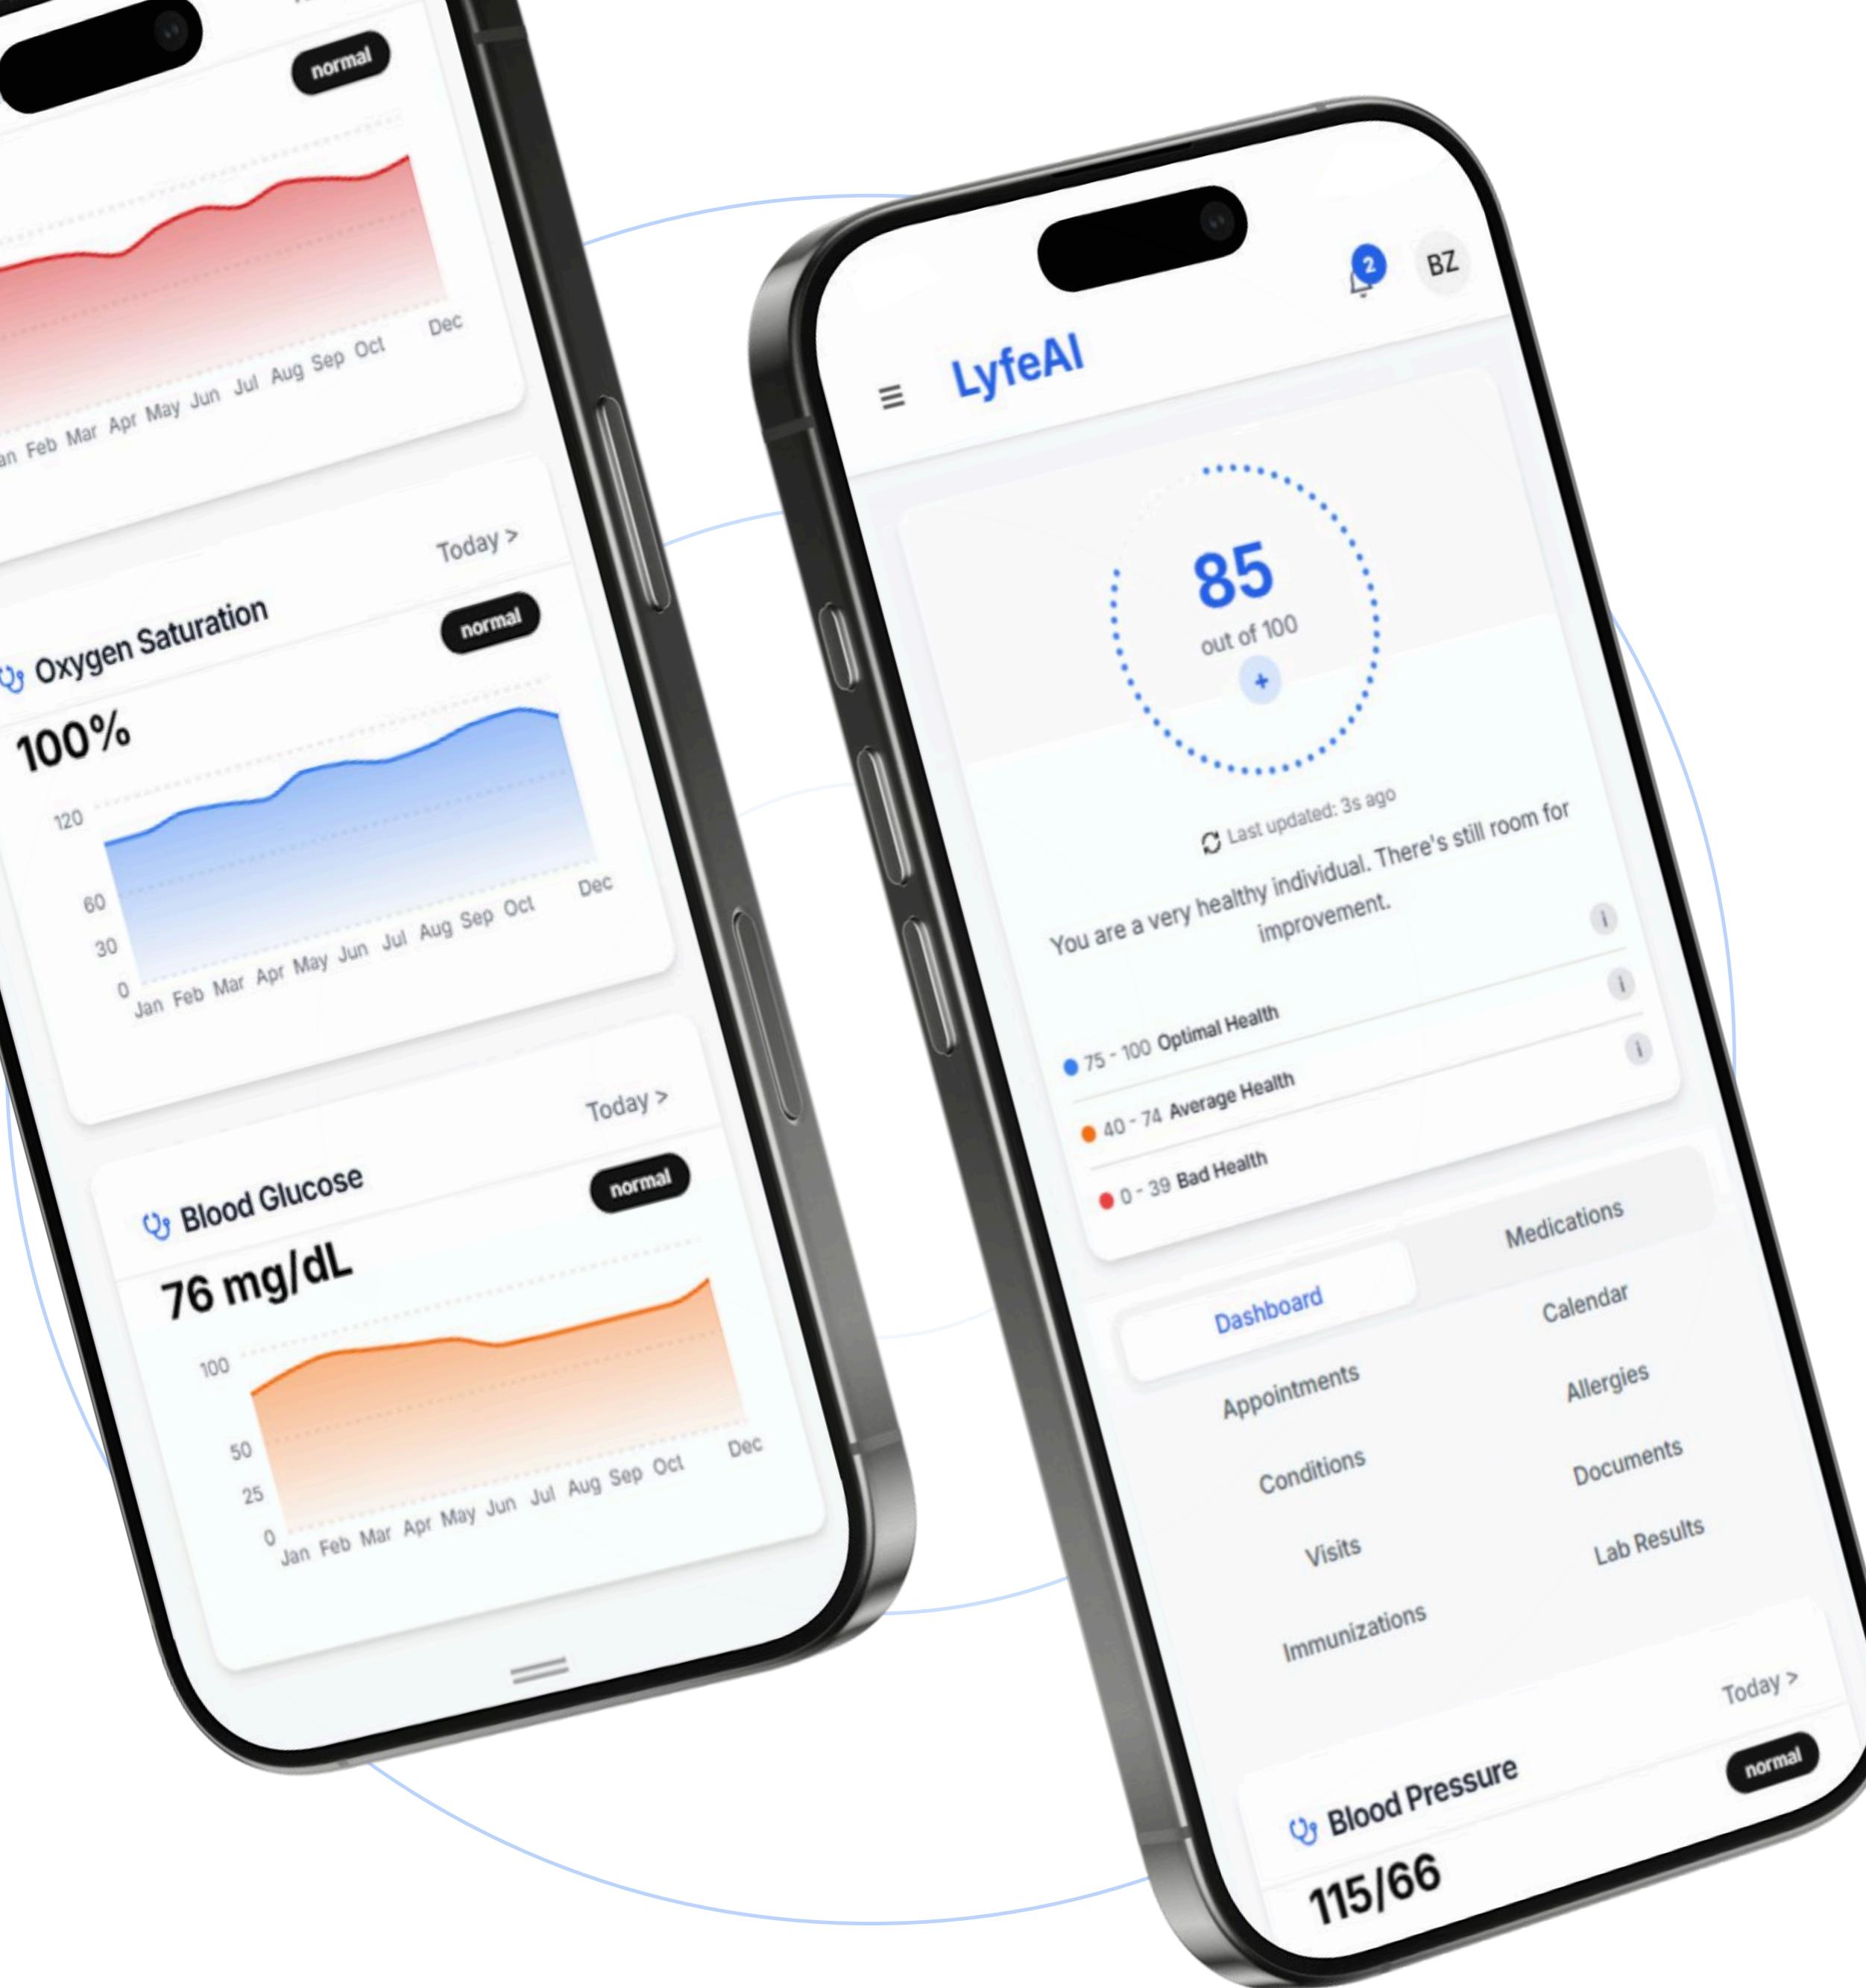

We aggregate external health data, documents/faxes, and existing EMR history into one unified timeline—then write new insights back to the system of record.

FOR DOCTORS

The Complete Patient Story At Your Fingertips

-  **Automated Chart Prep:** History is retrieved and organized before the patient walks in.
-  **Clutter-Free Intelligence:** AI automatically categorizes records so you only see what matters.
-  **Seamless Integration:** Approve and sync external data to your EMR without leaving your current workflow.

FOR PATIENTS

Empowering Patients With Clarity And Connection

- Complete Health Dashboard:** Meds, labs, appointments, conditions in one place
- Patient-Generated Data:** Log vitals from home, synced to doctor's record
- Care Reminders:** Medication alerts and appointment reminders

Doctors Get Visibility Into
What Happens Between Visits

Provider Subscriptions From Day One

Business Model:

- **Per-Practice Subscription:** Recurring revenue model aligned with practice value.
- **Free for Patients:** Removes barriers to entry to maximize engagement.
- **Scalable Upside:** Future expansion into analytics and data licensing.

Traction

- **First Paying Practice:** Launching January 2026
- **Second Paid Practice:** In pipeline
- **Building Momentum:** Strong pipeline demand from specialty practices.

Market Opportunity: \$15B market for patient data unification solutions

The Team To Make It Happen

Todd Orlando
CEO

Banking & Finance background.
Execution focus.

Sumeet Bhanvadia M.D.
CO-FOUNDER

Oncologic surgeon & researcher.
Deep clinical expertise.

Charles Sims
CTO

Scaling tech platforms. AI expertise
for 10+ years.

Sagar Patel
CSO

15-year track record in healthcare
commercialization
